EDUCATION

- National Institute of Technology, Silchar** 2021 – 2025
 - B.Tech Computer Science Engineering* CGPA: 8.57

EXPERIENCE

- UBS** Pune, India
 - Software Engineer* Aug 2025 – Present
 - High-Performance Backend Systems:** Architected and optimized distributed processing logic using **Databricks**, improving the execution speed of **Wealth Management** reporting workflows by **35%** across enterprise-scale datasets.
 - Database Architecture & Optimization:** Engineered a robust **PostgreSQL** backend; authored complex **DDL/DML scripts** and optimized indexing strategies to ensure low-latency data retrieval for core financial transaction tables.
 - AI-Driven Process Automation:** Developed a **GenAI POC** using autonomous agents to orchestrate the **Wealth Management Scrum lifecycle**, significantly reducing manual overhead in requirement analysis and task tracking.
 - Scalable System Design:** Streamlined backend data flows for high-concurrency environments, ensuring 99.9% data consistency across distributed systems used for global asset reporting.
 - Recognition:** Awarded '**Star of the Month**' for technical excellence and delivering production-ready features ahead of project deadlines.
- S N Bose, NIT Silchar** Assam, India
 - Web Development Intern* Jun 2024 – Jul 2024
 - Designed and developed a **Library Management System** with separate dashboards for students and librarians.
 - Implemented secure authentication and role-based access using **React**, **Node.js**, **Express**, **MongoDB**.

SKILLS

- Languages:** C, C++, Python, JavaScript, SQL
- Frameworks:** React, Tailwind CSS, Bootstrap
- Tools:** Git, MySQL, PostgreSQL, Postman, VS Code
- Core CS:** Data Structures, Algorithms, OOP
- Soft Skills:** Time Management, Leadership, Communication

PROJECTS

- Crypto Crafter** [\[Website Link\]](#) [\[Github Link\]](#)
 - React, Firebase, Material UI*
 - Built a real-time cryptocurrency dashboard using **CoinGecko API** with authentication and live updates via **Firebase**.
- Telugu News Categorization System** [\[Github Link\]](#)
 - Python, TensorFlow/Keras, NLP, Scikit-learn*
 - Neural Architecture & NLP Pipeline:** Engineered a **Hybrid CNN-BiLSTM** model using **IndicNLP** and **GloVe embeddings** for 5-class news categorization, outperforming baseline MNB and SVM models in F1-score.
 - System Implementation:** Developed a scalable preprocessing and deployment pipeline in **TensorFlow**, utilizing optimized model serialization to handle real-time headline stream processing.

ACHIEVEMENTS

- Solved **2000+ DSA problems** across Codeforces, CodeChef, LeetCode, GFG, and AtCoder.
- Achieved max ratings — **1424 (CF Specialist)**, **1904 (LeetCode Knight)**, **1684 (CodeChef 3)**.
- Secured **Rank 2** in CodeRush Quiz and **Rank 16** in CodeRush Challenge at **NIT Silchar**.
